for the 4<sup>th</sup> Round of Auction (GEA-4)

Dear **Gentleman and Mesdames**,

This refers to the Fourth Round of the Green Energy Auction (GEA-4), scheduled to be conducted in accordance with a Notice of Auction (NOA) to be issued by the Department of Energy (DOE) on 13 February 2025. The Energy Regulatory Commission (ERC) is in the process of determining the parameters and cost of RE technologies to be used by bidders in the aforementioned GEA-4.

Relative thereto, the Commission invites you to participate in the face-to-face Focus-Group-Discussion (FGD) to determine and compute the Green Energy Auction Reserve (GEAR) Prices, including the parameters and assumptions for each technology. Through this FGD, we hope to be able to confirm, update, and further clarify your data.
